EBF and European banks take note of comprehensive assessment results

The European Banking Federation, as representative body of the banking sector in Europe, takes note of today's publication of the final results of the comprehensive assessment of 130 European banks by European financial supervisors.

European banks support the assessment as an effort that aims to increase transparency.

The EBF and its members will first review the results before considering any further statements.

About the European Banking Federation:

Launched in 1960, the European Banking Federation is the voice of the European banking sector from countries in the European Union and the European Free Trade Association. Members of the federation are 32 national banking associations. The EBF represents the interests of some 4,500 banks, large and small, wholesale and retail, local and cross-border financial institutions. Together these banks account for over 80 percent of the total assets and deposits and some 80 percent of all bank loans in the EU alone. Website: www.ebf-fbe.eu
