THREE PARTNERS

The **MUSEUM OF SAVING** is a unique edutainment project, founded in 2012 to spread financial literacy via multimedia contents, such as videos, interviews, cartoons, games, that surprise and entertain visitors.

The **BEI INSTITUTE** The EIB Institute was set up within the EIB Group (European Investment Bank and European Investment Fund) to promote and support social, cultural, and academic initiatives with European stakeholders and the public at large.

SCANIA ITALIA As a part of the multinational enterprise Scania, a world-leading provider of transport solutions, SCANIA Italy offers cutting-edge solutions for a sustainable transport system.

A COMMON OBJECTIVE

Providing future generations with the basic skills needed to properly manage financial and natural resources, and supporting the ability to turn waste into value, savings into conscious investments, technology into a tool with a positive environmental and social impact.

THE ROADMAP

The **FIRST EDITION** of the **SAVE TOUR** will cover **CENTRAL AND SOUTH ITALY**.

A second edition will be focused on **ISLANDS**.

The project will last **6 MONTHS**, from October 2018 till May 2019.

It envisages **22 STOPS** in **8 REGIONS**.

7 STOPS will be done in the areas hit by the **EARTHQUAKE**.

THE EDUCATIONAL CONTENTS

SAVE is an itinerant project aimed at **primary, middle and high school students** all over Italy to raise their awareness on the responsible use of money and scarce resources.

3 FINANCIAL EDUCATION LEARNING PATHS:

- **THE HISTORY OF MONEY (age 6 - 10)**

This theme-based visit allows to discover the history of money and its players, from the earliest forms of bartering in the ancient Egypt to the introduction of the Euro.

- **FROM THE ORIGIN OF MONEY TO THE SPECULATIVE BUBBLES (age 11 – 14)**

An historical trip from the origins of money to the first speculative bubbles, like the famous "tulip-mania" of the 17th century. A special attention is paid to the individual behaviors which cause the financial crises, as well as to the severe effects they can generate on economy and society.

- **THE FINANCIAL INSTRUMENTS (age 15 – 18)**

The main financial instruments (e.g. shares, bonds, derivatives,..) and the basic financial concepts (e.g. the risk-return relationship) are explained in an amusing and entertaining way, enabling students to understand their role and functioning in the markets.

THE EDUCATIONAL CONTENTS

2 TEACHING LABS ABOUT SUSTAINABILITY:

LITTLE SAVINGS – RECYCLING FOR CHILDREN

(primary and middle school students)

An amusing lab to experience recycling and understand that not everything need be thrown away: some materials may be re-used and given a new life. Children are asked to bring various materials to be recycled from home: involving the family can stimulate reflection of the re-usable materials than can be found in the house.

GLOBE TROTTER – DESIGN YOUR SUSTAINABLE TRIP

(secondary school students)

A quiz to boost awareness on sustainable and responsible tourism. Moving across a circular carpet, students are requested to design an ideal sustainable trip.
